

Math-1151 Class Test 01 Section A

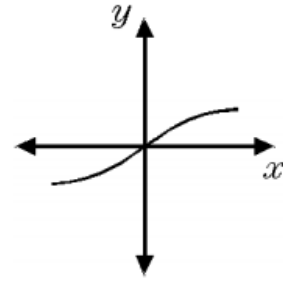

1. Consider the figures given below for the followings.

(a)

(b)

(c)

- (i). With proper reasoning identify the graphs which one is not a function. [1]
(ii). Sketch the domain and range of the functions in the same diagram of the graph of functions. [2]
(iii). Of those functions which one is invertible? Why? Also, sketch the graph of the inverse function. [2]
2. Sketch the following graph roughly using the basic graph.[4]
- (i). $f(x) = 1 - \frac{1}{2}|x + 1|$
(ii). $g(x) = 3\sqrt{2 - x}$
3. Sketch the even and odd extensions of the following graphs. [1]
