Why people should not smoke

Outline:

Introduction: Thesis statement:
Smoking ~~causes~~ many problems such
as - physical damage, environment
pollution, ^{and it} creates addiction, ^{and} makes
people waste money.

Supporting Paragraph-1: Firstly, smoking causes severe
physical damage to not only
who smokes, but also to people
around him.

Supporting Paragraph-2: Again, it causes environment
pollution, mainly air pollution.

Supporting paragraph-3: Another ~~prob.~~ negative side of smoking is that it is a very bad addiction which is very hard to let go. of.

Topic Sentence.

Supporting paragraph-4: A major drawback of smoking is that it is very expensive and makes people waste money.

Conclusion: Smoking is nothing but a bad habit that causes people ~~pey~~ physical damages, pollutes the environment, creates addiction, and it ~~it~~ is nothing but a waste of money.

Concluding Sentence.

Essay:

~~Smoking~~ Smoking usually refers to smoking cigarette cigarettes, weed, marijuana etc harmful and addicting substances. But by smoking, ~~the~~ majority of people understand smoking cigarettes. It is a very bad habit that very easily turns into addiction. People who ~~once~~ start smoking find it extremely hard to leave as they become physically and mentally depended on it. Smoking has no perks. Rather it is very fatal and causes nothing but problems and distress to people and society. Smoking causes many problems such as - physical damage, environment pollution, and it creates addiction ~~and makes~~ people waste money.

Firstly, smoking causes severe physical damage to not only who smokes, but also to people around him. ~~Cigarette~~ Cigaretts contain nicotine,

which is a toxic substance. It ~~causes~~
may cause many diseases ~~like~~ among
which some even might be fatal
such as lung cancer. It also may
cause people to have cancer in their
mouth. Long term smoking causes people
shortness of breath and they may easily
catch cold as their lungs become weak
gradually. All these damages don't only
happen to those who smoke, but also
to those who are around people who
smoke. The smoke mixes in the air
and thus people ~~around~~ ~~be~~ inhaling
that air fall a victim to ~~the~~ similar
physical damage and fatal disease. Thus,
smoking causes severe physical damage to
smokers and people around smokers.

Date:

Again, it causes environment pollution, mainly air pollution. The harmful smoke of cigarettes mixes with the air and makes the air polluted. It also spreads nasty odour that makes people uncomfortable. This polluted air and odour ~~causes~~ sometimes can make people ~~cough~~ cough and also cause serious damage to little babies. Thus smoking causes air pollution, which is really bad for the environment.

Another ~~major~~ negative side of smoking is that it is a very

bad addiction which is very hard
let go of. Once someone starts smoking
they can't let it go and it becomes
an addiction. Sometimes young kids,
teenagers, even young adults fall a
victim to this addicting because of
peer pressure. They are so hooked
on this bad habit that even after
knowing it's slowly killing them, they
can't let it go. This ultimately results
in people having various diseases, dying
early and having a reduced quality
of life. Thus, this bad addiction, smoking
destroys a person's life.

A major drawback of smoking is that
it is very expensive and makes people

waste money. With the increased price of daily commodities, the price of cigarettes are increasing as well. So people who are chain smokers or are heavily addicted to it have to ~~per~~ spend more and more money to quench their thirst of ~~this~~ smoke. People who have children and have a family to take care of are wasting money on this addiction rather than spending it for their family. Young adults who smoke, ~~is~~ instead of saving money, waste a huge amount on it regularly. ~~It~~ It ultimately causes people to have bad finance and nothing else. Thus smoking cause people to waste money and struggle financially.

Inclusion)

~~Smoking~~ Smoking is ~~not~~ a bad habit and an addiction. ~~Althau~~ ~~It~~ does

11 Smoking is an addiction. It is

nothing but a bad habit that causes people physical damages, pollutes the environment, creates addiction

and it is nothing but a waste of

money. It has no positive aspects

in it. That is why, although it is

a habit which is very hard to let go, ~~they~~ ~~should~~ people who smoke

need to stop immediately and save

7.5 themselves, ~~an~~ their loved ones, society

and the environment from harm. And

people who do not smoke should

not even think about starting it

trying it and stay as far away

from it as possible.
